

Food waste prevention and re-use

Joint meeting of the WG Food & WG Waste
Amsterdam, 4 April 2018

This short form is to facilitate the exchange of information among participants during the speed networking session. In small groups, each participant will present **one best practice from their cities on food donation and redistribution and food waste separation, collection and treatment.**

Title of project / initiative	The Model for Reduced Food Waste in the City of Gothenburg
City & population	Gothenburg 564.039
Briefly describe the project considering: main goal and activities, target group(s), actors involved	<p>The model for reduced Food Waste in The City of Gothenburg.</p> <p>The goal is to reduce the food waste from kitchen and serving with 50 percent until the end of 2018.</p> <p>In 2016 - 2017, 1,154 the canteen staff underwent training in The Model for Reduced Food Waste in order to use the tool correctly. The staff are working in some of the 502 (521) kitchens in the City.</p> <p>Target group: Canteen staff</p> <p>Actors involved: Politicians, 10 local district administrations, special administrations like education and Climate and environmental. Administration for allocation of social welfare. Department of Sustainable Water and Waste Management.</p>
What is the timeline for development and implementation?	<p>Initiating and developing the tool 2014 -2015.</p> <p>Education and implementation 2016 - 2017.</p> <p>Consolidate the process from project to Management 2018</p> <p>Establish 2019</p>
What are the costs/funding?	6.3 million
What are the main successes/expected outcomes?	That all canteen staff works in the same way regarding weights and registrations in relation with the tools of the model. Which means that we have comparable figures over time. The food waste is reduced with 40 percent from January 2017 - February 2018. The results are uncertain

	due to, among other reasons, that numbers of kitchen that register increases.
Which challenges did you face during implementation?	Communication in a large organisation. It's difficult to reach everyone.
Who should be contact for more information?	Name, Position, Contact details: Christina Linnerhag, Project Manager christina.linnerhag@centrum.goteborg.se facebook: @gbgmodellenn
